①

LARGE FLOOR

SMALL FLOOR

25MM SCREWS
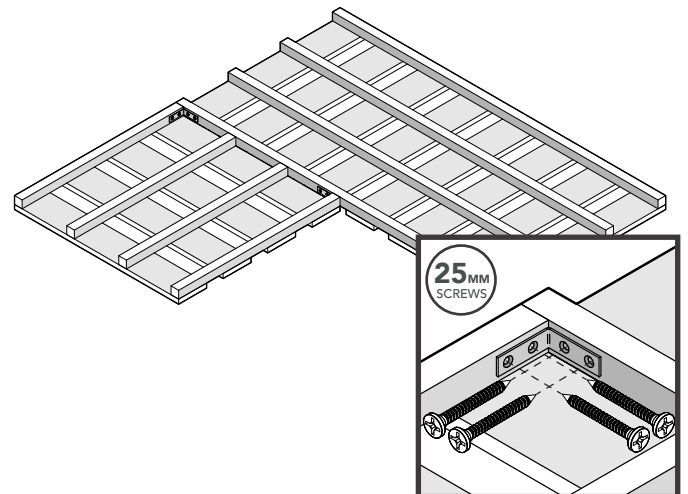

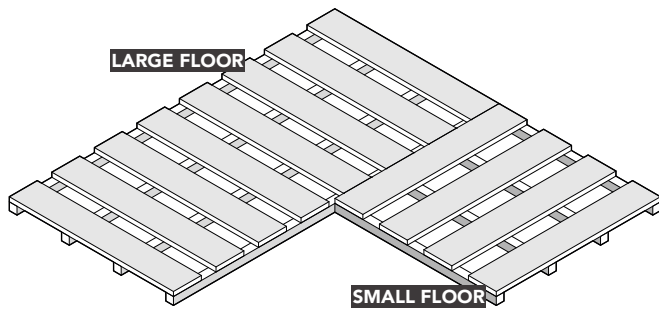

Position the floors in your **desired location**. Your log store must be built on a **solid** and **level** base.

Turn the floors upside down. **Position and secure 2 x L-brackets** to the corners of the **Small Floor** as shown above to secure the floors together.
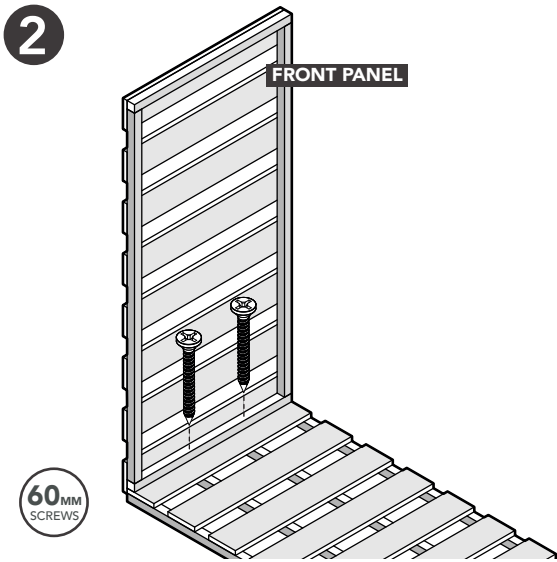

IMPORTANT
Assembly requires 2+ adults.

REMINDER
Always pre-drill before screwing.

2

FRONT PANEL

60MM SCREWS

Secure the Front Panel. Screw into the bearers of the floor beneath. Ensure the panel is flush to the edges of the floor.

3

50MM SCREWS

LEFT SIDE PANEL
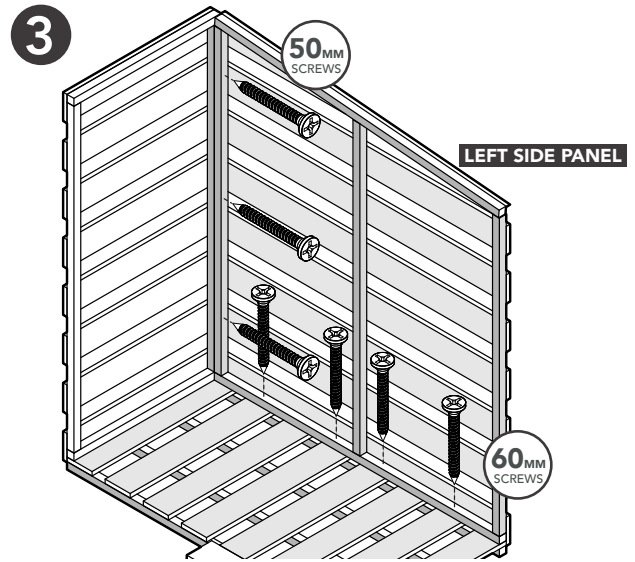

60MM SCREWS

Attach the Left Side Panel to the Front Panel and Large Floor as shown above. Use 60mm screws for the floor and 50mm screws for securing the panels together.

4

50MM SCREWS

BACK PANEL
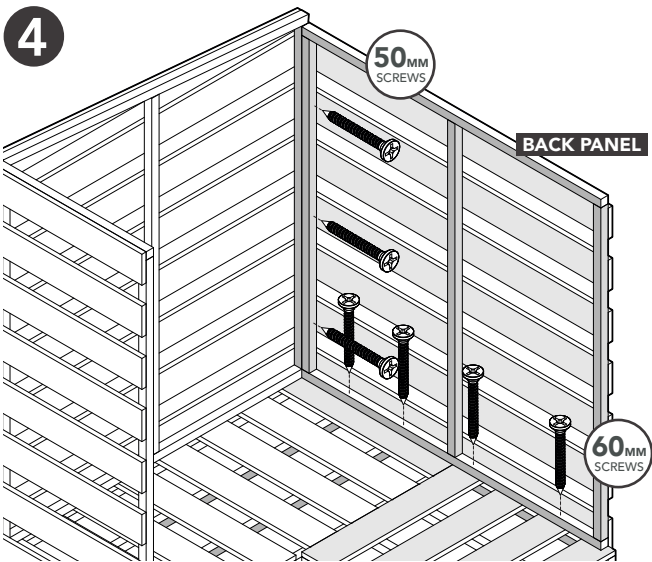

60MM SCREWS

Attach the Back Panel to the side panel and floors as shown above. Use 60mm screws for the floor and 50mm screws for securing the panels together.

5

50MM SCREWS

RIGHT SIDE PANEL
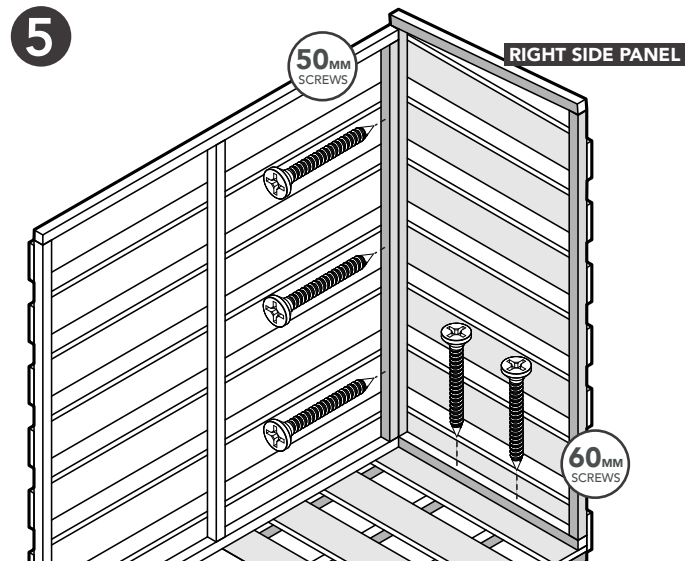

60MM SCREWS

Attach the Right Side Panel to the Back Panel and Small Floor as shown above. Use 60mm screws for the floor and 50mm screws for securing the panels together.

6

30MM SCREWS
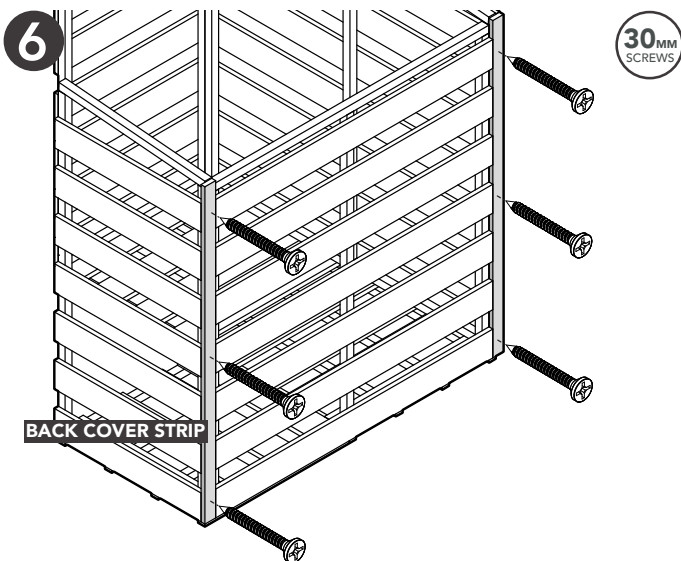

BACK COVER STRIP

Secure the Back Cover Strips. Ensure the strips are flush to the bottom board on the panels.

7

30MM SCREWS

MIDDLE COVER STRIP
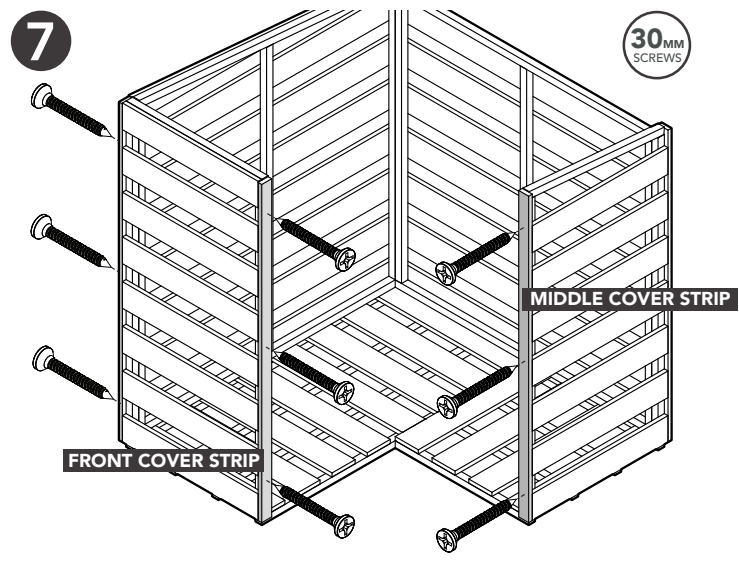

FRONT COVER STRIP

Secure the Front Cover Strip and Middle Cover Strip. Ensure the strips are flush to the bottom board on the panels.

8

LARGE ROOF
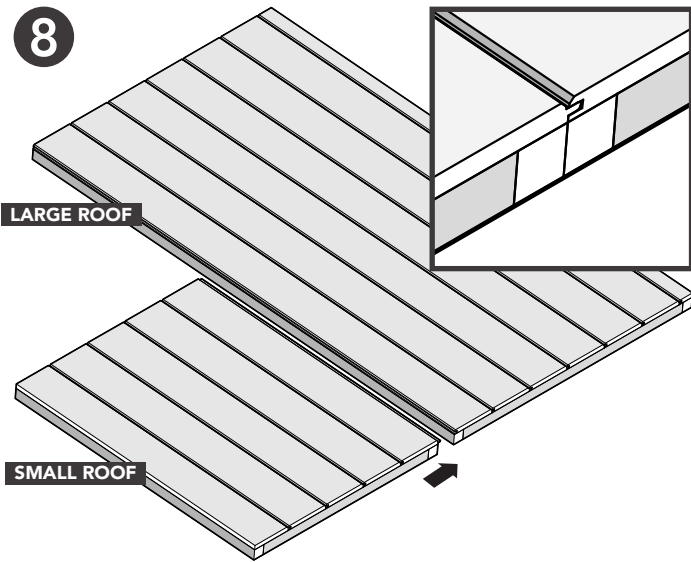

SMALL ROOF

Tap the Small Roof into the Large Roof with a mallet. Ensure the battens are flush together when slotting together. If a mallet is not available, use a wide piece of wood to protect the product when hammering.
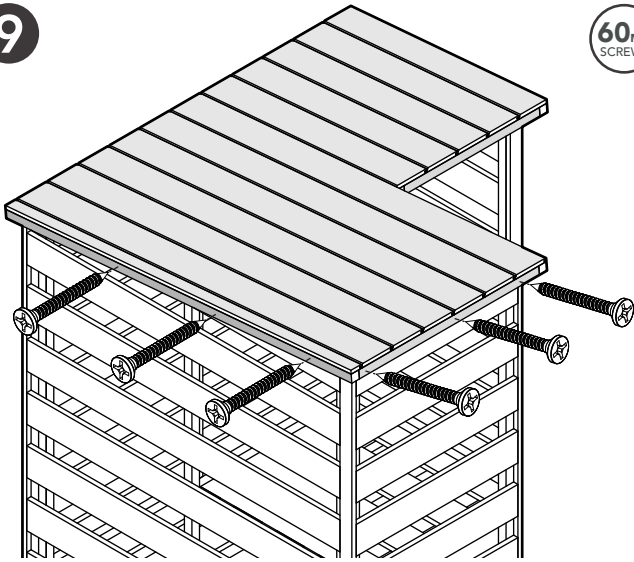

50MM SCREWS
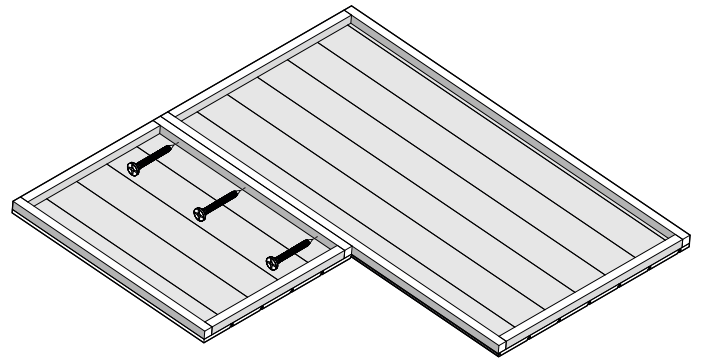

Once the roof panels have been slotted together, turn them upside down and **secure the roof panels together** as shown above.
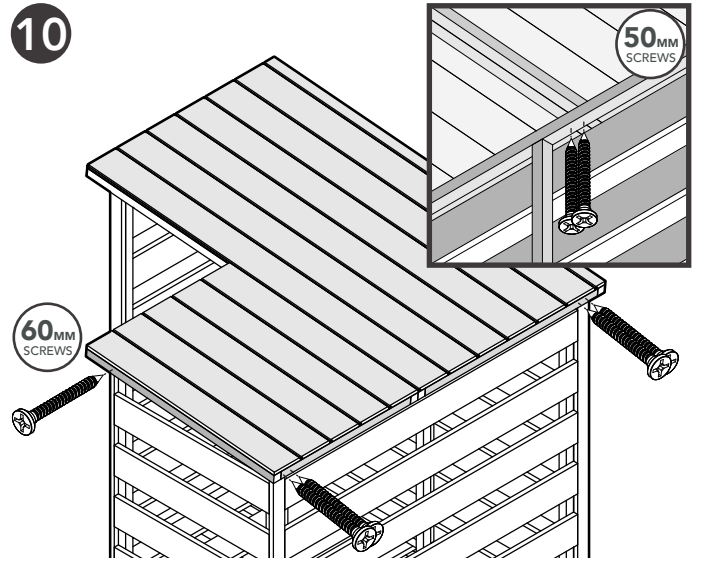

9

60MM SCREWS

Position and attach the assembled roof panels to the panels. Ensure the roof is pushed up against the Left Side Panel and Front Panel to secure into place.
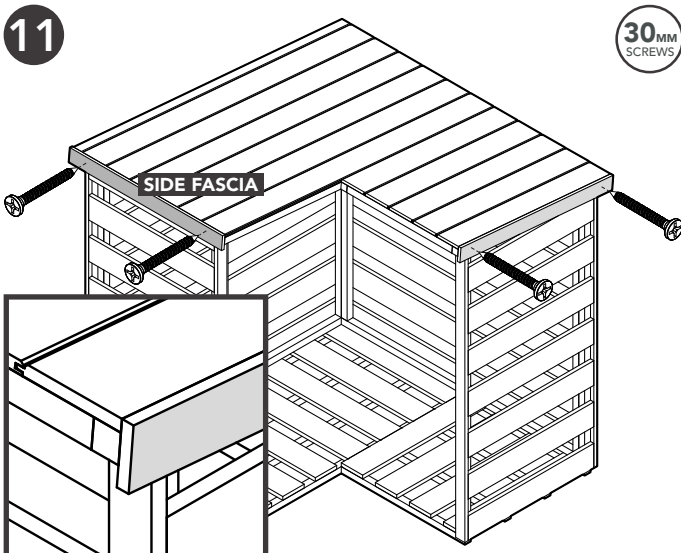

10

50MM SCREWS

60MM SCREWS

Secure the assmbled roof panels to the Cover strips, Back Panel and Right Side Panel as shown above. Screw through the top batten of the Back Panel into the roof battens that are resting on the Back Panel.
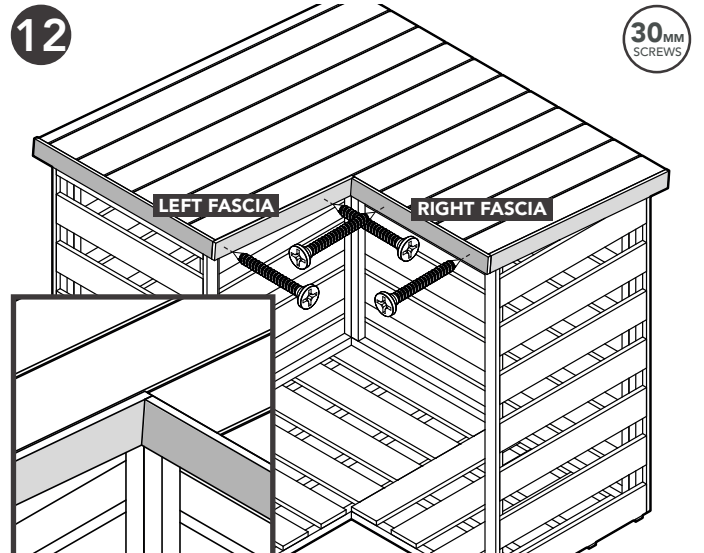

11

30MM SCREWS

SIDE FASCIA

Attach the Side Fascias. Ensure the fascias are flush to the inside roof face as shown above. There will be a slight overhang from the Side Fascia's.

12

30MM SCREWS

LEFT FASCIA   RIGHT FASCIA

Attach the Left and Right Fascias to the roof panels as shown above. Ensure they are flush to the Side Fascias.

CHECK YOU HAVE ALL YOUR PARTS PRIOR TO ASSEMBLY.
(The parts do not have codes on them. They are listed below should you need to order one.)

Timber is a natural material of which will shrink and swell as a result of varying moisture content.
Assembly of damaged parts may be deemed to be acceptance and this may affect the remedies you are entitled to. If the product is not constructed in accordance with the instructions, or is altered in anyway (e.g. painted), the manufacturer cannot be held liable for any resulting damage.

The components provided may be heavy. Please lift with caution and with a minimum of 2 people.
